

## YOU WILL BE PROUD TO KNOW THAT

plays a leading role on the Island in recycling and energy conservation. Here is how you can help.

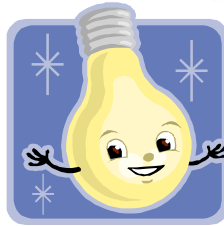

### IN YOUR ROOM YOU CAN RECYCLE:

Aluminum Cans & Glass, please rinse them and place them in the blue bins. Please place cardboard next to the blue bin

### ENERGY SAVING

Please turn off lights, TVs and ceiling fans that are not in use. Due to high humidity, the A/C is regulated automatically

REDUCE

REUSE

RECYCLE

REFUSE

### HOW TO HELP US SAVE WATER

If you would like towels changed, please put them on the floor. Should you want to use your towels again, please hang them on the rack. Please do not let faucets run unnecessarily. Report any leaks at ext. 100

Please maintain balcony and patio doors closed to prevent warm air entering the room. This can cause dangerous condensation on the floors and mildew grow on the walls & ceiling

### LA CABANA BEACH & RACQUET CLUB'S VISION:

To enhance our Environment for our Associates, Owners and Guests.

### IN A BETTER WORLD

All people celebrate the joy of life. People live in ways that preserve nature's ecological balance in an environment that is beautiful and clean. The planet's natural and abundant resources are shared equitably and the basic human needs of all people are provided for.

### NON-SMOKING ROOMS

All our guest rooms have been made non-smoking

### HERE IS A LIST OF OUR ONGOING PROJECTS

1. Per week . 30 Kilos of Aluminum cans are recycled
2. Per week . 2 tons of cardboard are recycled
3. Per week- 1,000 kilos of glass are recycled
4. Solar panels and heat recovery systems are used for heating water in public areas and guest rooms
